# Democrat Jon Tester

## is being supported by extreme liberal special interests

Jon Tester is being supported by liberal special interests because he will support them in Washington.

Who are Jon Tester's supporters?

- **Extreme environmentalist groups** like the League of Conservation voters who want to end logging, cripple energy production, tear down dams and destroy jobs
- **Anti-war extremists** like the Daily Kos who mocked American deaths in the War on Terror
- **East Coast liberals** who want to raise your taxes

These liberal special interests support Jon Tester because they know he will take them with him to Washington and vote the way they want him to.

### Jon Tester is as liberal as his supporters

Tester proudly states on his website that he will regulate farms, energy production and even water—just like the environmentalists want him to. He also has a long record of raising our taxes, supports gay marriage and is against the PATRIOT Act even though it is helping keep our families safe.

November 7th  
**Vote No**  
**on Jon Tester.**

*He's too liberal  
for Montana.*
